What Might Have Been.

A book rather out of the ordinary has been written by Joseph Edgar Chamberlin, literary editor of the New York Evening Mail. It is "The Ifs of History." The volume begins with Grecian times, considering what would have resulted had Aristides won the Athenian election over Themistocles, and runs on to the three queries as to what the effect would have been had Buchanan enforced the law in November, 1861; had the confederate army marched upon Washington immediately after the first battle of Bull Run, or had the southern states bought the East India company's fleet as they originally intended to do. It is intensely interesting, and sets one to thinking of what fearful and wonderful things might have happened if events had not occurred as they did. Henry Altemus company, publishers, Philadelphia.

Sartorial Wisdom.

A Manhattan magazine announces upon the authority of the leading writer on men's fashions that "double-breasted trousers" will be the vogue next spring. The same authority is quoted as declaring that "it is now considered good form to line the buttonholes with silk straight to the edge." This oracle has a competitor who also periodically ventilates the ludicrous combined with the incongruous. In an article treating of the approved form of mourning, the rival of the "double-breasted trousers" dictator, prescribed weeds as follows: "Husband for widow—nine months."

Clever and Witty.

Edward Salisbury Field, whose work for the big magazines has made his name known in every land where may be found a magazine, has recently published a book, "In Pursuit of Frisella," which is as interesting as one could wish for. The characters are two men, a girl, a dog and an automobile, and not only has the author evolved a plot which holds the interest from the first episode through all those that, like sudden flashlights, dazzlingly follow, but he has also enlivened his narrative by cleverness and wit of the conversations between his hero and heroine whose make-and-break courtship keeps the reader's attention in a condition as nimble as the brains of the chief characters. Henry Altemus company, publishers, Philadelphia.

Collisions in New York Streets.
There are 22 collisions daily in New York city between street cars and other vehicles where some damage is done.

A Princess and a Dictator.

An intensely interesting bit of romance is "Princess Nadine," by Christian Reid. A South American dictator, a Russian princess, and a secret agent of the Russian government have a leading part in the story; the liberal, if not revolutionary, convictions of a young Russian nobleman, which caused him to jeopardize his personal liberty and placed the princess, his cousin, in an awkward predicament, forming the ground work for a plot that is worked out to a satisfactory conclusion, the dictator proving more than a match for the Russian watchdogs and winning the princess, while at the same time saving her kinsman from Siberia. G. W. Putnam's Sons, New York, are the publishers.

A real clever boy's story, one in which the reader may gain no little information, as well as pleasure, is "The Boy Geologist," by Prof. E. J. Houston, published by the Henry Altemus company, Philadelphia. The scene is laid in a large boarding school, and the entertaining plot revolves about a number of healthy lads of that school, one of whom is especially interested in geology and another in chemistry.

The Great Secret.

The most fascinating story that E. Phillips Oppenheim has yet written is "The Great Secret," just published by Little, Brown & Co., Boston. In "The Great Secret" Mr. Oppenheim deals with a stupendous international conspiracy, replete with absorbing incident, in which all the characters are strongly drawn and very interesting, the culmination of the plot being an international coup, dramatic to a degree seldom equalled in this day and age. It is a remarkable pen picture, and should eclipse all previous efforts of the author in popularity.

HOW SHONTS WON HIS WIFE.

Father and Son-in-Law Fiddled Themselves into Matrimony.

Des Moines, Ia.—The romance which led to the wedding a few days ago of Miss Theodore Shonts in New York to Duc de Chaulnes is a duplicate of one enacted at Centerville, Ia., when the girl's father won the hand of the mother, Miss Mila Drake, a good many years ago.

Mr. Shonts was then a poor law student at Drake university in Des Moines. Here he met Miss Drake, daughter of him who was later to become governor of Iowa. He paid court to her, but won little favor with her father until he produced a violin and began to play duets, with Miss Drake at the piano. He became a frequent comer to the Drake home and he won his bride.

It is said that Theodore Shonts was opposed to the marriage of his daughter to a foreign nobleman and took no interest in the courtship of the duc until the duc repeated his own experience and appeared with a violin. The accomplishment, it is said, won him. So through a violin he won his wife and lost his daughter.

At that time the wedding of Mr. Shonts and Miss Drake was a quite a pretentious affair for the little town of Centerville, but, of course, it could not compare with the new Shonts wedding. Those in Iowa who knew the romance of the violin and how the present railway magnate fiddled himself a wife smiled when they heard that his opposition to the marriage of his daughter had softened under the soothing tones of a violin.

BAN ON ORIENTAL DANCERS.

Lid Placed on Girls Who Amuse Sailors at Philadelphia Navy Yard.

Washington.—Women who dress in tights and dance Oriental fashion for the amusement of sailors at the Philadelphia navy yard are under the government's ban. So are women who wear long skirts and waltz with the sailors on Sundays in the yard assembly hall. In fact, Uncle Sam has pressed the lid on all sorts of Sunday amusements at the navy yards.

These things were fully explained to a delegation of Philadelphia pastors who called on Secretary Metcalf for the purpose of registering an emphatic protest against "doings" at the navy yard. They told him that they visited the navy yard assembly hall there a few Sundays ago "just to see what was going on."

What they saw was "something dreadful," they said, "especially on the Lord's day."

The secretary told them that he already had received a protest from Philadelphia directed at naval yards amusements and showed the pastors a copy of a letter he had sent to the naval commandant calling a halt on the vaudeville shows, the dances and every other kind of amusement on the Sabbath.

The action of the secretary forestalls congressional inquiry into the moral status of the navy yards employees and the navy generally.

GOAT IS SHIP'S PASSENGER.

Will Supply Milk for Sick Baby—Barred from First Cabin.

New York.—Should a goat be taken as a first cabin passenger? Is one of the many questions which have arisen during the week to drive J. C. Horton, general passenger traffic manager of the ocean steamship company, to distraction. This question came up when James Harding of Glens Falls, N. Y., notified the company that he, his wife and their infant daughter, Florence, desired to sail on the steamer City of Savannah.

Miss Florence is very delicate, and under a doctor's advice has been drinking goat's milk, so Mr. Harding notified Mr. Horton that the goat that had supplied the milk would accompany them. He suggested paying first cabin fare for the milk supply, and giving the animal a room to herself. Believing that "Miss Nannie Goat" would not add to the attractiveness of the ship's list, Manager Horton sought to persuade the father that the goat would be as well cared for if put in the steerage. The outcome of all this was that when the City of Savannah sailed the goat went along, but not as a cabin passenger. She was put in comfortable quarters between decks.

ELECTRICITY AS CROP AID.

Government Expert Has New Plan to Hasten Growth.

Washington.—Prof. Albert F. Wood, assistant chief of the bureau of plant industry, department of agriculture, is at work on a line of experiments which, if expected results are obtained, will eliminate the word "backward," as applied to crops, from the farmer's vocabulary. He proposes to use electricity as a means of hastening the growth of plants and vegetables. That is, he expects to make it possible to farm by electricity.

Prof. Wood says that in Germany certain crops are raised by electricity. Why cannot the same be done in the United States? he asks himself.

Near the department of agriculture a plot of ground has been overlaid and underlaid with a system of wires. When the weather becomes warmer seed will be planted and the current turned on. Prof. Wood says that the experiments conducted in Germany show that by electricity sugar beets mature a month earlier than in the usual way, and that they contain more sugar.

TEN YEARS OF BACKACHE.

Thousands of Women Suffer in the Same Way.

Mrs. Thomas Dunn, 153 Vine St., Columbus, Ohio, says: "For more than ten years I was in misery with backache. The simplest housework completely exhausted me. I had no strength or ambition and suffered headache and dizzy spells. After these years of pain I was despairing of ever being cured when Doan's Kidney Pills came to my notice and their use brought quick relief and a permanent cure. I am very grateful."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Surely a No-Account Dog.
A man in Missouri recently sued a railway company for damages for the death of a hound killed on the track, says the Youth's Companion. The company defended itself upon the following points:

Said dog was chasing a rabbit up defendant's tracks in violation of the game laws.

Said rabbit lived on defendant's right of way, and was therefore the property of the defendant.

Plaintiff's dog was a trespasser, and was hunting defendant's property without permission.

Said deceased was not much of a dog, anyhow, or it could easily have kept out of the way of defendant's trains.

And having fully answered, defendant prays to be discharged.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for literature.

Address: J. C. HENRY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Oh, Pshaw!

One of the consuls to Persia, during a recent visit home, said at a dinner in Chicago:

"The present shah will never be the equal of his predecessor. What a character the late shah was. He never opened his mouth without saying something worth repeating."

"Lady Drummond Wolfe once got permission to visit the shah's harem. She took a friend with her, a Miss Blank, who was about to be married. The two English women wandered over the splendid palace, among the hundreds of beautiful girls, and presently the shah encountered them."

"Come here," he said to Miss Blank, in his crude French.

"She approached. He looked closely at her.

"You are about to be married?" he said.

"Yes, your highness."

"It's late!"

NOTABLE DATES.

Grapes are squeezed six times in making champagne, yielding wine of different qualities.

MUSIC STUDENTS

Should Have Steady Nerves.

The nervous system of the musician is often very sensitive and any habit like coffee drinking may so upset the nerves as to make regular and necessary daily practice next to impossible.

"I practise from seven to eight hours a day and study Harmony two hours," writes a Mich. music student. "Last September I was so nervous I could only practise a few minutes at a time, and mother said I would have to drop my music for a year."

"This was terribly discouraging as I couldn't bear the thought of losing a whole year of study. Becoming convinced that my nervousness was caused largely by coffee, and seeing Postum so highly spoken of, I decided I would test it for a while."

"Mother followed the directions carefully and I thought I had never tasted such a delicious drink. We drank Postum every morning instead of coffee, and by November I felt more like myself than for years, and was ready to resume my music."

"I now practise as usual, to my studying and when my day's work is finished I am not any more nervous than when I began."

"I cannot too highly recommend Postum to musicians who practise half a day. My father is a physician and recommends Postum to his patients. Words cannot express my appreciation for this most valuable health beverage, and experience has proven its superiority over all others." "There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in page.

COMPULSORY EDUCATION.

The Parson (during a lecture to Tommy on the evils of smoking)—How do you spell "injurious?" Tommy—I don't spell it at all. The Parson—What did you go to school for? Tommy—Because I had to.

LUMBAGO

This is really Rheumatism of the Muscles of the Loins and is characterized by a severe, at times, agonizing pain in the small of the back, allowing the sufferer scarcely a moment's rest, while the ailment is at its worst. It can come from cold, exposure to draft, from getting wet feet or wearing wet or damp clothing. It causes acute suffering, and if allowed to become chronic it may permanently disable the sufferer. The way to secure quickest relief is to reddens the skin over the painful part by rubbing with a flesh brush or piece of flannel rag, and then apply ST. JACOBS OIL by gentle friction with the hand.

Leisure to Burn.

"My dear," asked the overworked business manager of his wife, as he tried to write a check for her, answer the telephone, receipt the expressman, and give instructions to a floor-walker, at one and the same time: "My dear, in that 'Great Beyond,' do you suppose any of the elegant leisure, of which the preacher tells us, will fall to my lot?"

"Sure, John," answered his wife, sweetly, "you will doubtless have leisure to burn."—Illustrated Sunday Magazine.

In a Pinch, use ALLEN'S FOOT-EASE.

A powder. It cures painful, smarting, nervous feet and ingrowing nails. It's the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for sweating feet. Sold by all Druggists, 25c. Accept no substitute. Trial package, FREE. Address A. S. Olmsted, Le Roy, N. Y.

Many things lawful are not expedient.—Latin.

Proof is inextinguishable that Lydia E. Pinkham's Vegetable Compound carries women safely through the Change of Life.

Read the letter Mrs. E. Hanson, 304 E. Long St., Columbus, Ohio, writes to Mr. Pinkham:

"I was passing through the Change of Life, and suffered from nervousness, headaches, and other annoying symptoms. My doctor told me that Lydia E. Pinkham's Vegetable Compound was good for me, and since taking it I feel so much better, and I can again do my own work. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound did for me during this trying period."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.
